

IT DOES MORE.....IT COSTS LESS

Description:

The EiRA USB to HDMI converter connects a computer via USB to an HDTV, monitor or projector with HDMI, Highest performance USB graphics solution available. Combines both video and audio over a single USB cable and HDMI cable. It adds an additional display when the other video ports on your computer are occupied.

Features:

- **High-Definition Graphics Image:** Leveraging the high-bandwidth (5Gbps) Super Speed USB 3.0 interface, this USB 3.0 to HDMI offer a high- definition graphic images to your HDTV or monitors at resolution up to 1920x1080, so the external video displaying problem of the computer is solved easily. It functions like an external USB Graphics card to deliver smooth high definition video to your HDTV or monitor.

- **Monitor Multitasking:** Add a monitor to a computer without HDMI or add an additional display when the other video ports on your computer are occupied. Mirror or extend the connected monitor for an expanded workspace.
- **Resolution:** Resolution up to 1920x1080p (Only USB 3.0 connector can achieve resolution of HD 1080P, if you are USB 2.0 port, then it can achieve resolution of 800x600P).
- **Compact Design:** Portable USB3.0 Converter is lightweight to carry in your laptop bag when traveling. It is great for connecting your computer PC to a projector to mirror or extend your display desktop when you are in a classroom or a conference room for showing a presentation to increase your productivity.
- **Superior Stability:** USB 3.0 port and strong powerful chip ensure the stable transmission.
- **Super Speed:** USB 3.0 Interface and backward compatible with USB 2.0, Support for hot-pluggable devices
- **Easy to Install:** Simple installation and easy to operate.
- **Input:** USB (M) **Output:** HDMI (F)

Technical Specifications:

Brand	EiRA
SKU Code	ER2703
Product Name	USB TO HDMI CONVERTER
Resolution	1080p
Input	USB (Male)
Output	HDMI (Female)
Dimensions	17.5 x 9 x 2.5 mm
Weight	52 g
System supported	Windows 10,8.1,8,7
Warranty*	1 year

Note: It is only compatible with Windows7, Windows 8, Windows 10.

It is NOT a bi-directional converter and cannot transmit signals from HDMI TO USB.
