

## **Description:**

The MacBook, MacBook Pro, MacBook Air, Ultrabook™ or any Microsoft® Surface™ Pro devices equipped with mDP Port that allows you to connect an external display or projector using this converter. You can use an external display as your main workspace or to extend your desktop, or you can work in mirrored mode with a projector so you can view what your audience sees. Use the Mini DisplayPort to VGA converter to connect an advanced digital monitor and LCD TV, such as 46-or 52-inch LCD TV, that includes a VGA connector.

## **Features:**

- **Easy Connections:** Hassle-free connectivity with plug-and-play mDP to VGA video converter. It is compatible with mDP port as well as Thunderbolt 1 and Thunderbolt 2 ports. DisplayPort 1.1a standard mini DisplayPort.
- Supports DTS/DTS-HD, Dolby Digital/Dolby TrueHD, and Linear PCM (LPCM).
- **Crystal-clear picture quality:** With support for video resolutions up to 1920x1200 or 1080p, you'll be surprised at the picture quality the converter provides, even when connected to a legacy VGA monitor, projector or television. The converter harnesses the video capabilities built into your mDP connection to deliver every detail in stunning high definition.
- **Works with legacy VGA monitors:** The Mini DisplayPort converter makes your mDP computer fully compatible with existing VGA monitors or projectors in your home or
