

VGA Cable 5m (Premium Flat Wire) ER2103

Product Highlights:

- High resolution SVGA video cable is used to connect a SVGA card or monitor to each other or to a data switch.
- Both ends are a high-density 3-row male 14-pin D-sub nickel-plated connector with thumbscrew providing a high quality secure VGA connection.
- Bare copper 28-gauge 3+6 conductor wire (no copper clad steel) to enhance the signal integrity and filtering out noise.
- Triple shielding helps to prevent radio frequency and electro-magnetic interference (EMI/RFI).
- Outer PVC Layer increases durability and protects interference from other electronic signals, keeping picture clear and stable without any distortion.
- This male VGA to male VGA cable connects PC or laptop to the projector, LCD monitor, and other video display systems through VGA connections.
- Ultra-Thin Flat SVGA cable is super flexible when run under the carpet or bent in the plane of its thin cross-section such as doors, rotating arms, drawers etc.
- Ideal for Laptop, Computer, HDTV, Projector, Player, Monitor, etc.

VGA Cable 5m (Premium Flat Wire) ER2103

Technical Specifications:

Brand	EiRA
SKU CODE	ER2103
Product Name	VGA Cable 5 M
Colour	Black
Length	5 m
Connectivity	VGA male to VGA male
Type	VGA male
Resolution	1920 x 1200
Connector Type	Male 14-pin D-sub nickel-plated connector
Jacket Material	PVC
Compatibility	Laptop, Computer, HDTV, Projector, Player, Monitor
Weight	262 gms
Warranty*	1 year
