

PCIe Extender Riser Card x1 TO x16 USB 3.0 (VER009S) ER1041

Product Overview:

The PCIe Extender Riser Card x1 to x16 USB 3.0 (VER009S) is a device used to extend the PCIe x1 slot on a motherboard to a PCIe x16 slot. This allows users to install larger PCIe cards, such as graphics cards or other expansion cards, in systems that may have limited physical space or connectivity options. The VER009S model specifically features USB 3.0 connectivity, providing high-speed data transfer capabilities. This allows for efficient communication between the motherboard and the extended PCIe device. Overall, the PCIe Extender Riser Card VER009S serves as a practical solution for expanding the capabilities of systems with limited PCIe connectivity, enabling users to utilize a wider range of PCIe devices and peripherals.

Technical Specifications:

- Power Connector: 4pin, 6pin power connector with SATA power cable
- The board Size: 122x45x13mm
- USB Cable Length: 60cm / Blue or Red
- Compatible use: With any graphics card
- 1-slot PCI-E 1x riser card with high-speed USB 3.0 cable
- USB 3.0 Cable length: 60cm

Features:

- Brand new and high quality.
- Integrated Big 4pin and two 6pin ports, more compatibility.
- With 4x FP solid capacitors, making graphics power supply more stable and secure.
- Special design with automatic antijam circuit function
- With 2 led light can show the work statue of the card, Two Led 3.3V and 12V safe design.
- With SATA 15pin Male to 4pin, 15pin to 6pin, more powerful and flexible, and reduce the burden of the motherboard.
- Gold plated contacts for better connectivity and long life.
- With side clip to fasten another card.
- Compatible with 1x,4x,8x,16x PCI-E slot of the motherboard
- No driver needed.
- Compatible use: With any graphics card
- 1-slot PCI-E 1x riser card with high-speed USB 3.0 cable
- USB 3.0 Cable length: 60cm

Note:

Molex 4pin, 6-pin PCI-E power interface Integrate on PCB, only one power input is needed, Please DO NOT try to plug 2 or 3 power interfaces simultaneously.

Package Contents

- 1 x PCI-E 16X Slot Adapter
- 1 x PCI-E 1X Riser Card
- 1 x USB3.0 Cable
- 1 x SATA 15Pin to 6Pin Power Cable
