

### **Product Highlights:**

- This USB C 3.5 hard drive enclosure has **Reversible Type-C interface**, which can easily connect your 3.5-inch hard drive to a PC, Laptop, and other device for data transfer. It is an ideal choice for personal storage at home and office. You can take advantage of your hard drives' full potential.
- **High Speed Transmission:** Supports maximum transmission speed of up to 10Gbps; **support UASP** acceleration protocol, reducing CPU utilization and data latency
- The front side has power switch and user-friendly PUSH Design for **easy installation** and replacement of hard drives.
- **LED indicator** monitors the working status of the hard disk.
- Support hard drive largest capacity **16TB**
- **Aluminum Enclosure:** Made of aluminum alloy, with large area of honeycomb cooling holes, perfect for heat dissipation. Sandblasted with anodic oxidation process on the surface for stylish look.
- Heat resistance, resistance to low temperature, wear resistance, corrosion resistance, shockproof, dust proof, anti-electromagnetic interference, the functions of which can better protect the stability of the hard disk in different environmental changes. Security Anti-over voltage, over-current, overheating, short circuit, leakage and other multiple protection designs to ensure the safety and stability of data transmission.
- Plug and Play, Hot Swappable without rebooting, attach and eject as needed.
- Compatible with Windows / Mac / Linux multi-platform operating systems. Supports Windows 2000/XP/Vista/7/8/10/11, MAC OS X

### Applications:

- Take advantage of laptops and desktops with USB 3.0 (UASP) connectivity
- Turn a high-capacity SATA hard drive into a portable external storage solution
- Create a fast, portable external storage solution for desktops, laptops, or netbooks
- Upgrade the USB 2.0 drive enclosure to the SuperSpeed USB 3.0/3.1
- Add extra storage to almost any USB-enabled computer system
- Back up important data to an external storage device
- Share large files between computers quickly and securely without a network
- Retrieve data from an old SATA drive, or turn the unused drive into an additional external storage device

### Package contents

- 1 x Enclosure
- 1 x Power Adaptor
- 1 x USB C to USB C data transfer cable
- 1 x USB C to USB A data transfer cable
- 1 X Screwdriver kit

### Technical Specifications:

|                              |   |
|------------------------------|---|
| <b>SKU Code</b>              | ER1217UC35  |
| <b>Product Name</b>          | 3.5 SATA CASING (USB 3.1 TYPE-C)                          |
| <b>Colour</b>                | Silver  |
| <b>Form Factor</b>           | 3.5 Inch  |
| <b>Interface</b>             | USB 3.1: 10Gbps   |
|                              | SATA 3 Slot   |
| <b>Hard Drive Capacity</b>   | Support Up to 16TB  |
| <b>Casing Material</b>       | Aluminium   |
| <b>LED</b>                   | Yes   |
| <b>Power Source</b>          | External Power Adapter (12V-2A)                           |
| <b>Connectors (External)</b> | 1) Power – DC Adaptor<br>2) Data – USB C Port             |
| <b>Connectors (Internal)</b> | SATA (Serial ATA)   |
| <b>Additional Features</b>   | Fitting For 3.5 SATA Hard Drives, Speed rate up to 10Gbps |
|                              | Both PC and MAC, Plug and play, LED indicator,            |
| <b>Item Dimensions</b>       | 18.8 x 11.5 x 3.1 CM                                      |
| <b>Item Weight</b>           | 90 Gm   |
| <b>OS Support</b>            | Windows 2000/XP/Vista/7/8/10/11, MAC OS X                 |
